OUR INFRASTRUCTURE

The department has invested profoundly on infrastructure to keep pace with the changing needs and profile of the student population. To catch up with the scientific and technological advancements, parallel upgradation of facilities in the form of laboratories, library and other learning resources are carried on persistently.

Classrooms

The department provides spacious classrooms for imparting quality education. Faculty members make use of visual aids like projectors to make lectures more appealing and comprehensive.

Seminar Hall

A panorama of events is planned and organized by the department and to cater to these events, the department has its own seminar hall which is effectively used by students to give presentations and to organize several events.

Virtual Corporate Interaction Lab

The virtual corporate interaction lab is designed to enhance students' corporate communication and soft skills. It is equipped with high-speed internet, computers, webcams, and audio system to facilitate virtual interactions. The lab uses interactive simulation technique to recreate real-world business scenarios.

Research Lab

The department has a well-equipped Research lab for the research scholars assisting them to complete their research. The research labs are Wi-Fi enabled. Unique login IDs have been issued to research scholars for internet access.

Library

The staff and students have unlimited access to the wealth of information found in resources like books, magazines, journals, statistical databases, annual reports and the internet. There are also separate cubicles for personal study.

ACADEMIC ACTIVITIES

The department organizes various guest/special lectures throughout the year where the students receive an opportunity to meet different industry experts and corporate groups

EXTRA-CURRICULAR ACTIVITIES

A Glimpse of Jashan 2025

The department students have been actively involved in **Jashan** and **Youth Festival** organized at the University Level and have won runner-up trophy in Jashan.

ACADEMIC COLLABORATIONS

MOU with NSE ACADEMY

GNDU signed a three-year Memorandum of Understanding (MoU) with NSE Academy, the education arm of the National Stock Exchange (NSE) of India. This collaboration led to the launch of a joint MBA program in Financial Analytics, aimed at equipping students with data-driven financial skills and industry-relevant knowledge. The program includes live projects, case studies, and specialized training modules curated by NSE Academy, ensuring that graduates are prepared to address real-world financial challenges.

MOU with Olds College of Agriculture & Technology, Canada

Guru Nanak Dev University (GNDU) has established a Memorandum of Understanding (MoU) with Olds College of Agriculture & Technology, Canada, to foster academic and research collaboration. The MoU signed in March, 2025 is valid for five years and aims to promote cooperative programs, research and international understanding between the two institutions. The agreement facilitates faculty visits, student mobility programs, joint research projects and scholarly publications in the fields of agriculture and management. This collaboration marks a significant step in strengthening Indo-Canada academic ties and offers avenues for students to engage in international learning experiences and research initiatives.
