More than twenty departments of the University have received varied grants under UGC: SAP, DST-FIST and PURSE.

The commitment to follow the path of success and our forte to strive for better shall daintily lead us towards grander zeniths.

In addition to the green campus, excellent architecture, state-of-the-art infrastructure in well-equipped laboratories, contemporary workrooms for research and teaching, facility of online admissions, online counseling for State Level Admissions, Credit Based Evaluation System, more than twenty thousand learners in various faculties at its Main Campus, four Regional Campuses and nine Constituent Colleges to its credit, there are certain essential philosophies and ideologies that ensure the lasting repute of Guru Nanak Dev University.

We foster a desire for extraordinary performance. We provide an autonomous work environment and as a result, many members of faculty and researchers have won prestigious international recognitions and major research projects from UGC. To sustain our pledge to oneness, the teachers and scholars have been given the liberty to infiltrate invisible disciplinary barriers, develop an understanding of society, culture and science to produce works that establish an interdisciplinary relationship between science and literature, economics and environment, social science and linguistics, physiotherapy and psychology etc. Our expertise is highly sought after by the Government and many members of our faculty have been serving the Government of India in the highest capacities.

Our Credit Based Evaluation System and a well-developed placement cell assure the continuity of learning process and employment security to our students. Grading, on the basis of students' participation and involvement in academic and co-curricular work throughout the semester, warrants continuous achievement both at undergraduate and postgraduate levels. Postgraduate students are encouraged to write short dissertations, term papers, and research proposals and carry out assisted research projects to make them familiar with the higher level of investigation. A receptive and influential community of our national and international alumni binds us as members of a family.

It is a privilege to lead as head of Constituent colleges associated with Guru Nanak Dev University, Amritsar. These colleges have been established as a result of united effort of UGC, Government of Punjab and Guru Nanak Dev University, Amritsar with special purposes of raising the standard of higher education specially in rural area. These constituent colleges are under GNDU Management and get financial support from Punjab Government. For that reason, the fee structure has been according to the government colleges. These colleges provide quality and affordable education to needy students.

While cherishing the journey and milestones achieved so far, we must look forward and prepare ourselves for future challenges to propel these colleges to even greater heights. From current year (2024-25), our primary focus is on implementing the New Education Policy (NEP) in its true spirit, fostering inter-disciplinary research, deepening industry-academia collaboration, exploring and developing new avenues of knowledge, and resource generation through knowledge transfer. The students spend a significant portion of their lives on campus. They join the colleges to make their dreams a reality. In a world where change is the only constant, the colleges provide the students a solid foundation for their careers. The colleges give them the opportunity to integrate their minds, imaginations, and emotions in order to become capable of resolving public issues. The students have twofold responsibilities: one is to transform themselves, and the other is to address the complex problems faced by the society. It is my earnest appeal to students to make the best use of the time they spend at the college for their holistic transformation. The students must keep their curiosity alive and experiment new things. Let us educate society so that it is capable of generating innumerable ideas for human welfare. I am hopeful and confident that with everyone's support and commitment, we will achieve new milestones with ever-rising benchmarks, help our youth in making their dreams a reality, and propel the colleges to new heights. I urge the students to choose these colleges as their first preference.

The credit also goes to Vice-Chancellor of University, who has put in great efforts to establish and develop these colleges.
